OLEODINAMICA

**OLEODINAMICA  
MARCHESINI  
AFFONDA LE SUE RADICI  
NELLA DITTA  
INDIVIDUALE OILVALVOLE  
DI ETTORE MARCHESINI,  
FONDATA NEL 1982.**

The "Oleodinamica Marchesini Srl"  
company is the continuation of the  
individual concern  
"Oilvalvole di Marchesini Ettore",  
founded in 1982.

## AZIENDA

Grazie alla qualità dei prodotti ed alla continua ricerca di importanti innovazioni, l'azienda si afferma dapprima sul mercato nazionale attraverso la produzione di giunti rotanti e di valvole, prima fra tutte la "Valvola di Ribaltamento Aratro".

Col passare degli anni Oleodinamica Marchesini si concentra principalmente sulla produzione di valvole fino ad arrivare al 1999 quando quest'ultime diventano il prodotto di punta.

La spinta commerciale data in azienda negli ultimi anni dai figli Paolo e Fabio ha permesso ad Oleodinamica Marchesini di affermarsi anche sul mercato estero, attraverso l'acquisizione di clienti da tutto il mondo che costituiscono quasi il 70% del fatturato totale.

Excellenza di prodotto e di processo unita alla massima attenzione dei dettagli sono a garantire la perfezione assoluta dei prodotti. Sviluppo continuo, ricerca dell'innovazione, attenzione alla qualità e soprattutto attenzione alle esigenze di ogni cliente:  
DESIGNED FOR ALL

Questa è la chiave del successo, la mission fondamentale che da anni caratterizza l'attività di Oleodinamica Marchesini. Alta produttività e massimo dialogo per soluzioni custom made fanno di Marchesini un'azienda di capacità uniche nel suo settore.

## COMPANY

Thanks to the top quality of its products and the continuous research of innovative breakthroughs, the Company has made a name of itself on the domestic market through the production of rotating joints and valves, first of all the "Plough Overturning Valve".

Over the years the Oleodinamica Marchesini focuses mainly on the production of valves up to 1999 when valves become the flagship product.

The commercial boost given to the firm by founder's sons, Paolo and Fabio, has allowed Oleodinamica Marchesini to establish itself in the worldwide market too, through the acquisition of customers from all over the world, which constitute almost the 70% of total turnover.

Excellence in product and process, combined with the utmost attention to details, ensure the perfection of the products. Continuous development, research, innovation, attention to quality and mainly interest to the needs of each customer:  
DESIGNED FOR ALL.

This is the key to success, the fundamental mission which for years has characterized the activity of Oleodinamica Marchesini. High productivity and maximum box to custom-made solutions has made of Marchesini a firm of unique capabilities in its field.

## PRODUCTION

### PRODUZIONE

L'attenzione alla qualità dei prodotti inizia sin dalle prime fasi della produzione con un'accurata selezione delle materie prime e di un parco fornitori qualificato. Le lavorazioni meccaniche vengono eseguite con macchinari sempre all'avanguardia quali torni a controllo numerico e centri di lavoro orizzontali e verticali, parte dei quali forniti di isola robotizzata per il caricamento automatico dei pezzi.

Dopo ogni fase di lavorazione, un campione significativo di semilavorati viene sottoposto a severi controlli (dimensione, durezza, proiezione del profilo, ecc.).

Tutti i prodotti, prima di subire il trattamento superficiale di protezione, vengono sbavati termicamente per garantire l'assenza assoluta di bave.

Our attention on the product's quality starts from the first manufacture's steps, with a carefully choice of raw materials and qualified suppliers.

Mechanical manufacturings as lathes with numerical control, horizontal and vertical work-centres, some of which provided with a robot for pieces self-loading.

Before going on with next manufacture's steps, a sample of semi-finished product is carefully tested (dimensions, hardness, etc..).

All valve's bodies are subject to heat burring treatment before being zinc plated to guarantee the absence of burrs

## LA QUALITA'

Per la Oleodinamica Marchesini la qualità è un punto fondamentale. Il nostro Sistema di Gestione per la Qualità è certificato da parte di TÜV ITALIA secondo la norma UNI EN ISO 9001:2008 così da assicurare un buono standard qualitativo in tutte le fasi di lavorazione, dalla progettazione al collaudo del prodotto finito.

## THE QUALITY

Quality for Oleodinamica Marchesini is a fundamental point.

Our Operating Quality System has been certified by TÜV ITALIA in conformity with UNI EN ISO 9000:2008 in order to grant an high qualitative standard in every working stage of our production, from design to the final product's testing.
